

# PAETEC reaches up into Vermont

February 10, 2010 — 6:49am ET | By [Sean Buckley](#)

Staying true to its promise of expanding its market presence in 2010, PAETEC is bringing its business service expertise to Vermont--its 46th state to date.

Targeting both multi-state enterprise-type businesses and SMBs, PAETEC will offer its entire suite of voice (local and long distance), broadband Internet, MPLS-VPN, and network security products.

"This expansion completes our coverage for New England and the Northeastern United States" said Steve Richard, regional vice president in a release. "Our unique style of consolidating offices and employees regardless of location through communication solutions reflects Vermont's motto 'freedom and unity'."
