## First Annual VIP (Very Innovative Products) Awards

Thousands of products are reviewed in GHRI's labs each year. Many are problem-solving. Many perform well. And quite a few are innovative. But the winners of GH's First Annual VIP (Very Innovative Products) Awards meet *all three criteria*.

### Satellite GPS Messenger

For anyone who loves the great outdoors, this GPS rescue device can make a lifesaving difference. With near-total global coverage, it works where cell phones don't and has a 911 emergency signal that transmits every five minutes for up to 14 days until rescue. (At press time, it had aided over 65 distress calls.)
