

Magneat Organizers Keep Your Headphone Cables in Place

Feb 15 - 9:00AM by [GeekSugar](#)

There's plenty of ways to organize your cables [when you're at home](#), but while you're on the go, wrap up those earphone cables with the [Magneat Cable Organizer](#) (\$15). The Magneat lets you wrap up extra cable while you've got your headphones on, and attaches to your shirt (or bag) like a pin. But get this—you won't have to damage your clothes with a pin prick since the Magneat attaches via a magnet.

(Get it? *Magneat*?) There's plenty of designs to suit your tastes, but I happen to be partial to the Pixel

Skulls here. So cute, yet so edgy.
