Retailers Beat the Odds
After a Tough Climb

A Few Ideas For Your Dad and Grad

AGFAPHOTO 11-IN-1 CAMERA KIT

The Agfaphoto 11-in-1 accessory starter kit for digital cameras and video cameras from Zeikos (\$39.99) includes a carrying case, memory card reader and software for picture uploads.

CASIO PRIZM FX-CG10

The PRIZM fx-CG10 (\$129.99) is the next generation of graphing calculators, featuring a high-resolution color LCD and various functions designed to assist with math lessons. The high-resolution color LCD delivers full textbook-style display.

COBRA IRADAR

Cobra's iRadar (\$129.95) is a combination radar/laser/camera detector that uses Bluetooth technology to connect with the iPhone. With the Cobra iRadar app, users can connect to iRadar to view radar alerts, control settings, log alert history, and speed and red-light camera traps.

COBY KYROS MID7015

The Coby Kyros MID7015 Internet touch-screen tablet features a seven-inch screen and is powered by the

Android 2.1 OS. The screen permits viewing of videos in 1080p resolution

and connects to TVs via HDMI. Built into the MID7015 is 4GB of memory and there is a micro SD card slot so that capacity can be upped to 16GB.

CTA DIGITAL PSM-FSGC

This full-sized golf club from CTA Digital (model PSM-FSGC; \$19.99) is designed for use with the PlayStation Move titles Tiger Woods PGA Tour 11 and John Daly's ProStroke Golf.

HERCULES XPS 101

A 2.1-channel multimedia audio system, the Hercules XPS 101 (\$249.99) offers total power output of 101 watts RMS and a peak power specification of 202 watts. The speakers are magnetically shielded, and the subwoofer configuration is designed so that the driver on the front is flanked with two passive woofers.

IHOME IA63

iHome's model iA63 (\$99) is an app-enhanced alarm clock/FM radio speaker system that accommodates both iPhones and iPods.

JVC GZ-HM960

JVC's Everio GZ-HM960 (\$949.95) Full HD camcorder features a 16GB internal flash memory and an SD/SDHC/SDXC card slot. It also carries 10X optical zoom capability as well a 3.5-inch 3D LCD monitor, and can perform on-the-fly 2D-to-3D conversion for 3D viewing without glasses on the camcorder's screen.

MAINGEAR SHIFT SS

MAINGEAR's SHIFT SS (for Super Stock) is the carbon-fiber-chassis upgraded version of the \$1,899 SHIFT custom gaming desktop tower computer. It offers streamlined computing power "unbloated" with unneeded third-party software, for a faster, more stable gaming experience.

MAXELL GENPRO

Maxell's GENpro hard drive, which comes in 250-, 320- and 500-GB and 1- and 2-TB capacities, will automatically save the entire contents of a Windows XP, SP2 and Vista PC; it is also Windows 7-ready.

PCD BIGSTREAM

PCD's Bigstream (\$99) allows the wireless streaming of audio and video from an Apple iPhone, iPad or iPod to a TV. It boasts easy setup and is compact for ready portability. The device, after it moves an image to a larger screen, allows the gamer

to use his or her Apple device as the game controller.

PNY MEMORY CARDS

PNY's 16GB Professional Series High Speed SDHC Class 10 Flash Memory Card (\$49.99) is for HD videographers and photographers. Transfer speeds can reach up to 20MB/sec, and the Class 10 rating is the highest available for SDHC flash cards. Versions are available in capacities from 4GB to 32GB.

POLAROID A T T

Polaroid Imaging Accessories' A T T (All Terrain Tripod) is a flexible tripod whose leg tips include industrial-grade magnetic disks for metal surfaces, heavy-duty suction tips for glass and smooth surfaces, spiked tips for use on outdoor surfaces, and rubber tips for carpeted or porous surfaces.
